**RE: Bethel Nutritional Consulting, Inc.
v. Jonathan Gropper and Vortech Web
and Business Solutions LLC
Our File No.: 38,164-0**

Dear Mr. Gropper:

I represent Bethel Nutritional Consulting, Inc. ("Bethel"), a company engaged in the sale of nutrition and weight loss products and diet plans over the Internet.

As you are well aware, in February of 2008, Bethel engaged you and your company, Vortech Web and Business Solutions LLC, to establish Bethel's domain www.bethels30weightloss.com and develop and design Bethel's Internet website for the sale of its herb supplement products, including Bethel's S 30 and Fast 30. You provided Bethel with website hosting and administration until Bethel terminated your services on February 18, 2009. During that one-year period, you enjoyed full access to Bethel's domain and confidential and proprietary business information, product data and marketing strategies and confidential customer data (including but not limited to customers' credit card processing data). You also had unlimited access to the Bethel's domain's user names, passwords and secret questions and answers. Bethel regards all these business assets, developed at considerable expense, as unique and of very substantial value.

Bethel has received information which strongly supports the conclusion that you and Vortech Web and Business Solutions LLC, apparently in concert with others, are hijacking Bethel's domain, abusing your administrative power over Bethel's domain and exploiting your past access to Bethel's confidential business information to unfairly compete against Bethel by deceptively marketing Bethel's S 30 and Fast 30, violating Bethel's trademark rights and otherwise intentionally interfering with Bethel's customer relationships. As a result of your apparent conduct, Bethel has suffered harm to multiple business relationships and will suffer further harm in the future.

Bethel does not wish to believe that you and Vortech Web and Business Solutions LLC are now engaged in, and intend to continue, such a course of unlawful and unethical conduct. Bethel also does not want to become embroiled in litigation which might be avoided by the simple expedient of your supplying Bethel with the full, truthful facts regarding your conduct and the conduct of others in concert with you. Bethel therefore is extending to you an opportunity to provide fully responsive answers to the following questions:

1. Have you and/or Vortech Web and Business Solutions LLC, either directly or indirectly, conducted any activity over the Internet using the domain www.bethels30weightloss.com from February 18, 2009 to present? If so, state:

Furthermore, this letter shall serve as notice that you are to immediately cease and desist from all unlawful conduct, or Bethel will act to enforce its rights in Court through a civil action for injunctive relief and monetary damages, including

¹ Adequate preservation of electronically stored information requires more than simply refraining from efforts to destroy or dispose of potential evidence. You must also intervene to prevent loss due to routine operations and employ proper techniques and protocols suited to protection of electronically stored information. Be advised that sources of electronically stored information are altered and erased by continued use of your computers and other devices.
